We are here for you!

At Creative Teacher, it is our mission to help teachers find effective, creative and productive ways to use their computers. An important part of this mission involves providing outstanding service. When you order from Creative Teacher, we want you to be satisfied. We select only the best products for our catalog. If you see a product featured in our catalog, you can be assured that it is one of the best products available at the best price possible.

This catalog features products for using the Internet. Educators around the world are interested and intrigued by the educational possibilities of the Internet. Check out our Internet section to find out more about software tools that are available for 'surfing the net'. For educators who want to learn more about the latest technologies, we offer a fine selection of books. Also, in this catalog you will find some very special math tools. We are importing high-quality manipulatives and making them available to schools in the United States. Instructional strategies that combine the use of manipulatives with specialized software tools, such as Ventura's Hands-On Math series, have been highly effective in helping children develop math concepts.

We are excited about these new products. We do want the chance to 'wow' you, not only with our products, but also with our fast, friendly service. Each and every one of us at Creative Teacher is committed to making it easy for you to find the right product to meet your needs. If there is something that you need that isn't in the catalog, just give us a call on our toll-free 800 number, and we will track it down for you.

We appreciate any suggestions that you might have as we continually try to find ways to better serve you.

Sincerely,

The Creative Teacher Staff

The Best in Educational Technology!

30-Day Money Back Guarantee!
All of our products are backed by a 30-day guarantee. If you need to return a product for any reason within the 30-day time period, just call for a return authorization. All products must be in 100% resalable condition, and must be returned within 30 days of the date on the invoice, or you may be charged a 15% restocking fee.

Our Preview Policy
Many of these products are available for preview. Call today or request on your purchase order that you wish to preview the items and, if available, you will automatically receive them for a 30-day trial period.

Shipping
We offer FREE shipping on orders over $500.00 (UPS ground within the continental U.S.). For orders that are under $500.00, please add 5% ($5.00 minimum). Additional freight charges will be added for heavy hardware/peripheral orders.

Order Toll-Free
Just call us at (800) 493-7380 between 8am and 5pm, PST, Monday through Friday.

Creative Teacher Top 10 • Mathematics

GraphPower	$79.95	Graph-Ease+	$59.95
Math Workshop	$39.95	Algebra	$58.95
Hands-On Math	$59.95	HyperCard Projects for Mathematics	$29.95
Millie's Math House	$34.95	Algebra Concepts	$59.95
Probability Toolkit	$79.95	Stickybear Math Town	$35.95

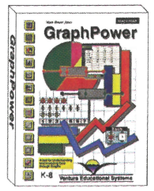
In *Curriculum and Evaluation Standards for School Mathematics*, the National Council of Teachers of Mathematics identifies a shift in the availability of technology to society. Access to tools such as the calculator, computer, and on-line communication systems have dramatically affected the way we conduct our everyday business, transforming our society into what scholars have dubbed "The Information Society." Our youth must acquire the appropriate skills to adequately understand the society in which they will work.

The NCTM has developed specific guidelines for math educators in order to ensure that students will learn the necessary mathematical skills to be competitive in the business world. Their main goals are for students to value mathematics and become mathematical problem solvers, growing confident in their ability to communicate and reason mathematically. To meet these ends, the NCTM calls for curriculums that incorporate different emphases in the current way mathematics is taught, while also introducing some aspects of mathematics that have traditionally been neglected.

We at Creative Teacher feel that the primary and most interesting way to enrich a mathematics curriculum involves the use of one of technology's most powerful, adaptable tools--the computer. In our catalog, you will find the top educational math programs, distinguished by their accessibility, efficiency, and applicability.

Teacher Tested

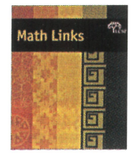
GraphPower



The types of graphs produced using *GraphPower* include pictograph, vertical bar graph, horizontal bar graph, line graph, circle graph, and box & whisker graph. *GraphPower* features an integrated database, built-in statistical functions, 9 levels of tutorials for grades K-8, integrated draw tools, a comprehensive teacher's guide, and reproducible student activity sheets. Grades K-8.

	School	Lab (5)	Site License
MAC	$79.95	$129.95	$695.00

MicroWorlds: Math Links



Math Links provides true advantages over other math software. Its open-ended activities support NCTM standards, enhancing aspects that receive little emphasis in the average text book. Experiment with geoboards, tessellations, geometry, spirals, pentominoes, and more. Work on math as problem solving, reasoning, and communication. Move away from drill and practice and into thinking mathematically. Grades 4-8.

	School	Lab (5)	Site License
MAC	$75.95	$307.95	$999.00

Hands-On Math 1, 2, and 3

See page 18 for Hands-On Math Video Inservice

Hands-On Math 1

Hands-On Math Volume I simulates the use of six manipulative devices: Number Bars, Tiles, Counters, Tokens, Geoboard, and Tangrams. For each device, a Playground program provides the child with an opportunity to freely explore and discover important mathematical concepts. Children learn number concepts, basic operations, fractions, and many other math concepts by moving objects on the screen. Teacher's guide and reproducible student worksheets included. Grades K-8.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00
DOS	$59.95	$109.95	$595.00

Hands-On Math 2

Hands-On Math Volume 2 simulates five manipulative devices: Two Color Counters, Color Tiles, Mirrors, Attribute Blocks, and Base Ten Blocks. The active learning program provides students with an opportunity to investigate a variety of important mathematical ideas. In addition to the exploratory environments, interactive drill and practice reinforces learning and measures progress. Teacher's guide and reproducible student worksheets included. Grades K-8.

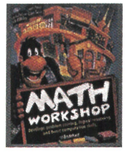
	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00

Hands-On Math 3

Hands-On Math Volume 3 focuses on the use of six math instructional techniques: a Hundreds Chart, a Graph Center, a Number Balance, Dominoes, Line Design, and Fraction Sticks. The Playground allows students to explore and discover math concepts. The Exercises provide students with specific activities to practice working with concepts and to help in mastering objectives. Teacher's guide and reproducible student worksheets included. Grades K-8.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00

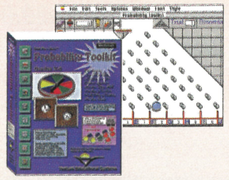
Math Workshop



This program gives students an opportunity to develop and practice critical math skills in a creative environment filled with games, music, animated characters, and more. By engaging in a variety of fun-filled math activities, students can build problem solving, strategic thinking, and computation skills. Each activity includes multiple levels of difficulty designed to reinforce both confidence and motivation. Grades 5 and up.

MAC/WIN CD-ROM $39.95

Probability Toolkit



Imagine having a powerful tool for exploring probability at your fingertips. *Probability Toolkit* provides teachers and students with an easy-to-use computer-based environment for simulating and analyzing chance events. Features include: 7 interactive probability experiments, 4 levels of graphically illustrated tutorials, integrated note pad writing tool, 6 instantly generated graphs, on-screen help mode, built-in glossary, and a comprehensive teacher's guide with reproducible worksheets. *Probability Toolkit*, a new power tool for math teachers! Grades K-8.

MAC	$79.95	$129.95	$695.00

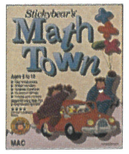
Teacher Tested

Balancing Act

Balancing Act combines devices which are used to represent equality and inequality to create a unique computer-based learning tool where students explore operations involving whole numbers, integers, fractions, and decimals. Simply select the learning environment from the tool menu and set the options for the proper difficulty level. Instantly, your Macintosh computer becomes a power tool for investigating math concepts. Grades K-8.

	School	Lab (5)	Site License
MAC	$79.95	$129.95	$695.00

Stickybear's Math Town



Using a town as a setting, Stickybear will teach students how to gain proficiency in addition, subtraction, multiplication, and division with and without word problems. In addition, students will also learn important life skills. Stunning speech, animation and sound effects provide positive reinforcement. A report card feature helps teachers and parents track children's progress. Program speaks in English and Spanish. Grades K-3.

	Single	School	Lab (5)
MAC	$35.95	$49.95	$109.95
DOS	$35.95	$49.95	$109.95

Millie's Math House

Millie's Math House is an early math concepts product full of lively characters, colorful graphics, and spirited music that capture children's imaginations while teaching fundamental skills in six interactive activities. The program has won several educational excellence awards for its cross-curricular activities that encourage creativity and develop problem solving skills.
Grades K-3.

	Single	School	Lab (5)
MAC	$34.95	$49.95	$109.95
DOS	$34.95	$49.95	$109.95

Thinkin' Things Collection

Buy all three *Thinkin' Things* classics for one low price.

$109.95

Thinkin' Things 1

Orange Banga, Feathered Friends, and other Thinkin' Things help students build memory, problem solving, logic, and other thinking skills. Grades K-4.

	Single	School	Lab (5)
MAC	$39.95	$54.95	$115.95
DOS	$39.95	$54.95	$115.95

Thinkin' Things 2

Orange Banga's Band, 2D-3D Blox, and other new Thinkin' Things develop visual and musical creativity, challenge memory and concentration, and improve the ability to visualize objects in three dimensions. Grades 1-6.

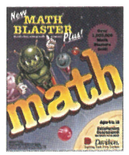
	Single	School	Lab (5)
MAC	$39.95	$54.95	$115.95
DOS	$39.95	$54.95	$115.95

Thinkin' Things 3

Stocktopus, an octopus stockbroker, and other new and familiar friends challenge students to develop logical reasoning, analyze and synthesize information, explore elementary computer programming, and build key problem-solving and critical thinking skills. Grades 3-7.

	Single	School	Lab (5)
MAC	$39.95	$54.95	$115.95
DOS	$39.95	$54.95	$115.95

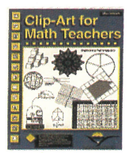
Math Blaster: In Search of Spot



Children will build and improve mental math and problem-solving skills as they tackle everything from addition, subtraction, multiplication and division, to number patterns, estimation, fractions, decimals and percents. The school versions includes 35 activities which follow themes from the curriculum and evaluation standards for school mathematics. Grades 1-6.

	Single	School	Lab (5)
MAC	$38.95	$57.95	$143.95
DOS	$38.95	$57.95	$143.95

Clip-Art for Math Teachers



This useful clip-art collection provides math teachers with a wide variety of detailed diagrams that can be added to tests, reports, overhead transparencies, and worksheets. Paste some of these diagrams into teacher-prepared materials and watch students' interest increase.

Now in COLOR

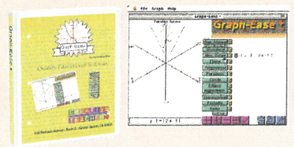
	School	Site License
MAC	$39.95	$99.95
DOS	$39.95	$99.95

Elementary Math Graphics CD

Use these fantastic and colorful graphics to spice up any of your classroom materials, worksheets, tests, flyers, and grading sheets! Macintosh graphics in PICT format. Includes both black & white and color versions of each graphic. Bundle includes: Grids & Charts, Primary Math 1, Primary Math 2, Intermediate Math 1, and Intermediate Math 2.

	School	Site License
MAC	$49.95	$129.95

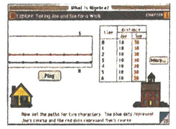
Graph-Ease + by Mark Schneider



Graph linear equations in slope intercept form, parabolas, planes in 3-Dimensions, and much more at just a touch of a button. *Graph-Ease+*, an easy-to-use graphing program, also allows you to graph exponential and logarithmic functions, periodic functions, and polar graphs on your computer screen. Grades 7-Adult.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$359.95
DOS	$59.95	$109.95	$359.95

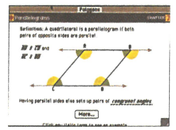
Algebra



Algebra is a tutorial program designed to complement Algebra 1 and 2 coursework. It provides interactive explorations, tutorials, and problem sets within a series of chapters on variables, real numbers, slope and slope-intercept form, linear inequalities, absolute value, graphing quadratic equations, functions, and binomial equations.
Grades 7 and up.

	Single	Site License
MAC	$58.95	CALL
DOS	$58.95	CALL

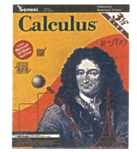
Geometry



Geometry is a complete first year geometry course comprising ten chapters. While developed to adhere as closely as possible to major textbooks, *Geometry* was also designed to take advantage of the computer's unique capabilities by animating geometric principles and allowing for interactive explorations. Includes chapters on points, lines and planes, polygons, congruence, area and volume, and coordinate geometry. Grades 7 and up.

	Single	Site License
MAC	$58.95	CALL
DOS	$58.95	CALL

Calculus



Calculus is a mathematical program that includes more than 300 problems and is compatible with major textbooks. The program includes an entire year of coursework. Special features in the program animate, demonstrate, and explain the sequences of operations required to solve basic calculus problems. Grades 11 and up.

	Single	Site License
MAC	$58.95	CALL
DOS	$58.95	CALL

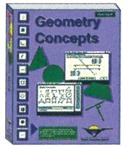
Algebra Concepts

Algebra Concepts provides a complete introduction to the terminology and basic concepts of algebra. Simulated algebra tiles develop an understanding of operations with integers, the addition and subtraction of binomials and trinomials, multiplying expressions, and factoring. Students can define a linear or quadratic function and see a graph of the solution set. Multiple graphs can be drawn on the same grid to illustrate solution sets for simultaneous equations. Grades 7 and up.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00
DOS	$59.95	$109.95	$595.00

Geometry Concepts

Now in COLOR



Geometry Concepts is a valuable tool for overcoming the difficulty students have in learning geometry. Students learn the terminology of geometry and the informative lessons making it an essential tool for any math teacher. *Geometry Concepts* is an interactive tutorial and learning game using geometric terms and a multiple choice quiz. Topics include basic concepts, angles and triangles, circles, area and perimeter, planar figures, and solid figures. Grades 7 and up.

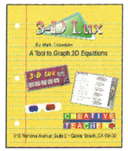
	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00
DOS	$59.95	$109.95	$595.00

Geometry Toolkit

Build an intuitive understanding of essential geometry concepts using this exciting interactive educational software program. *Geometry Toolkit* can be used to support any geometry curriculum. This software tool creates a variety of learning environments that can be effectively used in a discovery approach to mathematics. A comprehensive instructional guide helps teachers lead their students to discover important mathematical concepts and to build a fundamental understanding of geometry.
Grades 1-8.

	School	Lab (5)	Site License
MAC	$79.95	$129.95	$695.00

3-D Lux by Mark Schneider



3-D Lux is a tool to create, edit, and animate 3-D images. Graph 3-D surfaces of equations in 3 variables and watch your images change before your eyes. Create fold-up patterns to scale of regular pyramids, prisms, frustums, cylinders, and cones. All menus, dialogs, and help screens are available in English and Spanish. Includes red and blue 3-D glasses. Grades 8 and up.

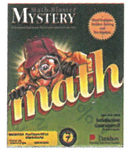
	School	Lab (5)	Site License
MAC	$79.95	$129.95	$379.95

Tesselmania!

Inspired by the artwork of M.C. Escher, *TesselMania!* lets students create their own interlocking, puzzle-like designs. With *TesselMania!*, students experience transformational geometry while stretching their imaginations and creating works of art. *TesselMania!* provides an exciting connection between the worlds of mathematics and art. Grades 3-8.

	School	Lab (5)
MAC	$49.95	$125.95
DOS	$49.95	$125.95

Math Blaster Mystery

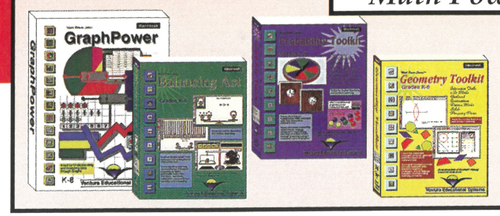


Math Blaster Mystery features four learning activities that cover such skills as solving word problems and working with positive/negative numbers, fractions, decimals, and percents. The program also develops inductive and deductive reasoning skills to help students determine the best strategy to solve a problem. Other features include: "hint" screens; positive reinforcement and a printed certificate of excellence; and an editor that lets teachers and parents add their own math problems. Grades 4-8.

	Single	School	Lab (5)
MAC	$34.95	$52.95	$143.95
DOS	$34.95	$52.95	$143.95

Mathematics

Math Power Series Bundle



Save a bundle, when you purchase *GraphPower*, *Balancing Act*, *Probability Toolkit*, and *Geometry Toolkit* as a complete set!

Now only $274.95

Manipulative Kits

Many of the activities using manipulatives involve the use of concrete materials. Teachers can use part of the regular classroom sets of materials or buy the handy kit with the correct amount of materials in convenient storage containers.

Manipulative Set

The manipulative set contains: 50 "Cube-a-links", 30-pattern blocks, mini-logic block set, double sided geoboard and elastics, and a set of mini 3-D solids.

Manipulative Set $41.95

Color Tiles

Versatile and easy to handle 1" tiles that allow children to do number sets, graphing, sequencing, patterning, etc. Recommended in *Mathematics Their Way* program. Four colors. 100 of each.

Block Set $17.95

Pattern Blocks Activities #1

The blackline master workcards cover all the skills and activities for grades K-4. Children will learn about matching, filling spaces, patterns, perimeter, and symmetry.

Block Set $29.95

Geoboard

Geometry activities come to life when students use geoboards to explore shapes, angles, sets, number patterns, and other abstract math concepts. These quality geoboards are made of durable plastic and are an excellent value.

Block Set $3.95

Pattern Blocks

Spatial analysis, line, rotation, symmetry, patterns, flip, slides, turns, number patterns, area, perimeter, and fraction concepts all can be effectively presented with pattern blocks. The brightly colored blocks will motivate students to learn and explore. Teachers will appreciate the durable wood and handy storage container.

Block Set $22.95

Cube-a-Links

Present new concepts and extend skills with Cube-a-Link GeoShapes. Triangular, concave, and convex shapes (plus a universal connector) enable students to create more advanced geometric shapes. Each kit contains 100 of each of the three shapes in ten brilliant colors and also 50 universal connectors--more than enough to fuel any student's imagination.

Block Set $11.95

Mini-Logic Block Sets

Develop thinking skills and logical abilities with *Mini-Logic Block Sets*. The blocks vary in size, color and shape and fit neatly in a handy storage case for easy clean-up.

Teacher Tested

Block Set $13.95

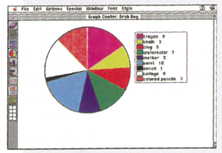
Pattern Blocks Activities #2

Over 125 activities in blackline master workcard format that cover free exploration, spatial analysis, line and rotational symmetry, flips, slides and turns, tessellations, perimeter, fractions, area, number patterns, and more.

Block Set $29.95

Math Power Series

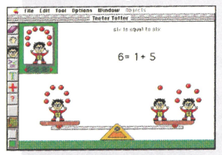
GraphPower



GraphPower features an integrated database, built-in statistical functions, 9 levels of tutorials for grades K-8, integrated draw tools, a comprehensive teacher's guide and reproducible student activity sheets.

MAC $79.95

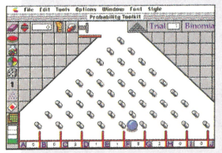
Balancing Act



Balancing Act combines devices which are used to represent equality and inequality to create a unique computer-based learning tool where students explore operations involving whole numbers, integers, fractions, and decimals.

MAC $79.95

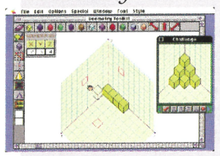
Probability Toolkit



Imagine having a powerful tool for exploring probability instantly at your fingertips. *Probability Toolkit* provides teachers and students with an easy-to-use computer-based environment for simulating chance events.

MAC $79.95

Geometry Toolkit



This software tool creates a variety of open-ended learning environments that can be effectively used in a discovery approach to mathematics. An instructional guide helps teachers lead their students to discover important mathematical concepts and to build a fundamental understanding of geometry.

MAC $79.95

Life Cycle of a Sea Lamprey

Life Cycle of a Sea Lamprey presents the life cycle and anatomy of the sea lamprey. The program stimulates students' interest in marine biology and works in conjunction with the other three programs in the *Marine Life Series* in providing a complete unit on comparative anatomy. Grades 7 and up.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00
DOS	$59.95	$109.95	$595.00

Anatomy of a Fish

Anatomy of a Fish covers the external, internal, and skeletal structures of a bony fish. Students learn how various parts work together to support life. Graphically illustrated lessons present basic information on the topic. Grades 7 and up.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00
DOS	$59.95	$109.95	$595.00

Anatomy of a Shark

External, internal, and skeletal structures of the shark are the focus of this information-packed program. Students will gain an in-depth understanding of the anatomical structures and the related biological functions of a shark. Graphically illustrated lessons present basic information on the topic. Grades 7 and up.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00
DOS	$59.95	$109.95	$595.00

Simple Machines

Students travel the globe and journey through time to investigate ancient and modern applications of six simple machines: the inclined plane, the wedge, the lever, the screw, the pulley, and the wheel. Travelers will uncover the scientific meanings behind work, follow the evolution of simple machines, and learn how civilizations advanced through their use. Grades K-9.

	School	Lab (5)	Site License
MAC	$179.95	$795.00	$995.00

Forces and Motion

Have students spend the afternoon with the likes of Galileo and Newton through this lively, interactive, and graphically advanced program! Investigate gravity, buoyancy, the Three Laws of Motion, and much more. Kids will encounter fascinating facts, faces, and forces, as well as multiple opportunities to discover and employ mathematical and problem-solving skills. Grades 3-8.

	School	Lab (5)	Site License
MAC	$179.95	$795.00	$995.00

Magic School Bus: Solar System

Ms. Fizzle gets lost in space and it's up to the kids to investigate planets, moons, and other objects in space to get them back home. *Magic School Bus: Solar System* shows realistic NASA and Jet Propulsion Laboratory videos. Multimedia show-and-tell reports help your child learn how the solar system works. Grades 2-6.

	Single
MAC/WIN CD	$52.95

Imagination Express: Destination Ocean

The mystery and wonder of the sea comes alive as students create their own interactive stories. *Destination Ocean's* beautifully detailed scenes, stickers and extensive factbooks are based on the marine life and human history of an actual national marine sanctuary. Students learn about ocean habitats, the role of oceans in ecosystems and much more! Grades 2-6.

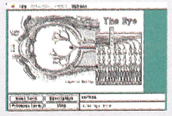
	Single	School	Lab (5)
MAC CD	$37.95	$51.95	$143.95
WIN CD	$37.95	$51.95	$143.95

Imagination Express: Destination Rain Forest

Students interact with exotic plants and animals, interesting characters and lush sights and sounds as they play, learn, and create interactive stories set in the *Rain Forest*. Students select scenes and then add "stickers," text, sound effects, dialog and narration to bring their adventures to life. Stories can be played back on-screen or printed. Grades 1-6.

	Single	School	Lab (5)
MAC CD	$37.95	$51.95	$143.95
WIN CD	$37.95	$51.95	$143.95

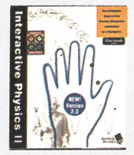
Senses



Explore the fascinating workings and intricate parts of the human sense organs. Using this program, students gain an in-depth understanding of the mysteries of human perception. The program includes a learning game, a database, and a multiple choice quiz designed to make learning fun. Detailed drawings of the five sense organs help students learn to recognize the names of the intricate structures and their functions. Grades 7-12.

	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00

InterActive Physics II



InterActive Physics II is a complete motion laboratory on the computer. Choose from real world elements such as motors, pulleys, pin joints, actuators and masses to create your own experiments. Easy enough for the student and complex enough for the professional, the program has many new tools and new simulation capabilities which allow it to simulate complex engineering experiments. Export simulation data to other applications or create QuickTime movies. Grades 9-Adult.

	School	Lab (5)	Lab (10)
MAC	$179.95	$575.00	$795.00

Magic School Bus: Human Body

Explore how the human body works through an interactive tour. Join Ms. Fizzle and the class as you travel in three dimensions through different organs. Click on white blood cells and see them turn into police cars that fight off germs! Try up to 12 science experiments and play 12 informative games. Grades 2-6.

	Single
MAC CD	$52.95
WIN CD	$52.95

ChemAid

ChemAid makes learning the periodic table fun. The program is an information resource that presents the elements according to their symbol, classification, and position. Students will enjoy the challenging identification game where the objective is to correctly recognize and spell the name of an element based on its position in the chart. Grades 7-12.

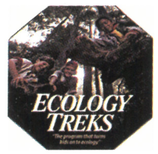
	School	Lab (5)	Site License
MAC	$59.95	$109.95	$595.00

"Cell"abration

Create your own multimedia learning environment with this dynamic science courseware on living things and the cell. Children's natural curiosity will come alive with this interactive CD-ROM program, the "hands-on" laboratory materials, and guided lessons. Grades K-3.

	School	Lab (8)	Site License
MAC	$179.95	$795.00	$995.00

Ecology Treks



Embark on an ecological voyage of the earth through a rich, colorful almanac closely integrated with a captivatiing game. Students experience the Brazilian rainforest, play with eco-simulators, explore the earth's biomes, and use their knowledge to survive in the wilderness. Includes an extensive interactive tour of the rainforest's five levels, plant and animal relationships, and food and energy. Perfect for biology or life sciences. Grades 3-9.

	School	Lab (5)	Site License
MAC	$58.95	$129.95	$699.95

Fun Physics

Fun Physics, the original *InterActive Physics*, is a drawing board where your drawings and experiments come to life! Create an unlimited number of your own unique experiments or explore the large selection of experiments provided. Fun Physics is a learning tool that's powerful and easy-to-use. Grades 8-Adult.

	School	Lab (5)	Site License
MAC	$49.95	$595.00	$995.00

HyperCard Projects for Science

Learn HyperCard while you build practical science software that is ready-to-use in any classroom. Teachers learn how to create professional science software to enhance their curriculums. Starting points are given for several topics, including understanding science vocabulary through diagrams and definitions, anatomical structures and functions, experiment simulations, and much more!

	School	Lab (10)
MAC	$29.95	$299.95

Learning All about Dissections

This interactive multimedia program is a great introduction to animal dissection procedures, as well as an overview of dissection as a scientific tool. It can be used to supplement or replace actual dissections in the classroom. Students will be able to define and explain dissection as a carefully performed investigation of anatomy after using this program. Grades 7-12.

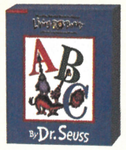
New Living Books Titles



Dr. Seuss's ABC's

Only Dr. Seuss and Living Books could make the alphabet so unpredictably entertaining. More than 400 alphabetically-inspired surprises hidden within 26 pages show children that learning words and letters can be fun and even silly! (English and Spanish) Grades K-2.

MAC/WIN $39.95

Berenstain Bears Get in a Fight

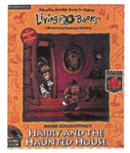
Brother Bear wakes up grouchy and Sister Bear gets mad. In no time, a silly spat turns into a big fight. Spend a stormy day with the world's most beloved bear family and find out how these two usually compatible cubs resolve their differences. (English and Spanish) Grades K-2.

MAC/WIN $39.95

The New Kid on the Block

Children explore a new dimension of the written word. Instead of clicking on pictures, they click on various words or lines of 18 selected poems and watch with delight while animated cartoons act out their selections. (English and Spanish) Grades 1-4.

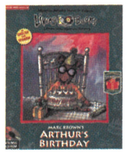
MAC/WIN $39.95



Harry and the Haunted House

When Harry D. Rabbit hits one of Earl's famous curve balls into the spooky old house down the street, he stumbles across dozens of hair-raising experiences in search of his baseball. (English and Spanish) Grades K-2.

MAC/WIN $39.95



Arthur's Birthday

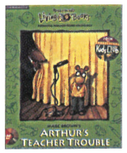
Arthur's having a big birthday party on Saturday and all his friends are invited. But--oh no!--Muffy's having a party at the same time! No one knows what to do. Things look gloomy until Arthur has a brainstorm that ends up surprising everyone, including himself! (English and Spanish) Grades K-2.

MAC/WIN $39.95

Ruff's Bone

This delightful new *Living Book* follows the valiant Ruff in a far-flung search for his missing bone. He travels to a distant jungle, an ancient sunken ship, and other far-off places. Along the way, he meets a playful monkey, tap dancing blue jeans, a friendly satellite, and dozens of other charming characters. (English and Spanish) Grades K-2.

MAC/WIN $39.95



Arthur's Teacher Trouble

Arthur is in the trials of the school-wide spellathon. If he can't spell a certain 11-letter word, he'll be in big T-R-O-U-B-L-E! (English and Spanish) Grades K-3.

MAC/WIN $39.95

Creative Wonders from Electronic Arts

EA*Kids Art Center

In *EA*Kids Art Center*, painting is only the beginning. Five colorful, engaging activities--stickers, coloring, costumes, painting, and black art--nurture creativity and provide hours of play. Designed for preschool artists, *EA*Kids Art Center* features an intuitive interface and a beginner's level, so even a young child can produce a masterpiece in minutes. Grades K-2.

MAC/WIN $36.95

Little Monster Goes to School

Children spend the day with Little Monster as he goes off to school to learn about ABC's, numbers, science, and other subjects. (English and Spanish) Grades K-2.

MAC/WIN $39.95

Peter Pan: A Story Painting Adventure

Peter Pan encourages kids to read the story and actively direct the adventure. Uniting with the Paintbox Pals, a set of animated paint tools, children become the storytellers, reading along with the spoken text and then choosing a Paintbox Pal to magically alter each scene. With 30 scenes and hundreds of interactive choices, each trip through Never Neverland is a new adventure. Grades K-2.

MAC/WIN $36.95

Just Grandma and Me

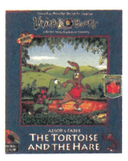
In this endearing story, Little Critter and his Grandma have a series of adventures when they take the bus to the beach! (English, Spanish, and Japanese) Grades K-2.

MAC/WIN $39.95

Scooter's Magic Castle

Scooter guides kids on a magical learning adventure that reveals over 20 captivating games behind every castle door and stained-glass window. Each activity reinforces a skill such as problem-solving, matching, patterns, vocabulary, and counting. Children can create colorful monsters in the laboratory or grow their own magic gardens and fish in the castle moat. Grades K-2.

MAC/WIN $36.95



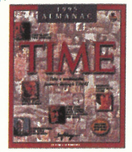
The Tortoise and the Hare

The race between the tortoise and the hare has entertained children for generations. This retelling of Aesop's Fable includes hilarious new twists, so the story is fresh, enchanting, and full of surprises. Grades K-2.

MAC/WIN $39.95

Time Almanac

RISING STAR



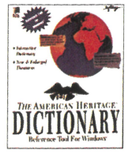
Relive the greatest triumphs and tragedies of the 20th century. Witness the bombing of the World Trade Center in New York, the signing of the Mideast Peace Accord, and the election of Nelson Mandela in South Africa. Explore the past, decade by decade, simply by clicking on the topics which interest you. Review hundreds of photos, maps, and videos, plus thousands of riveting firsthand accounts of the most important events of the 20th century.

MAC/WIN $59.95

Nikolai's Trains

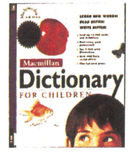
Nikolai's Trains is a story of two friends, Nikolai and his toy cat Neow-Neow, their trains, and a great race across the landscape of Nikolai's imagination. Each colorful page is fully-interactive and has dozens of enjoyable animations set against a background of music and art. This captivating story will offer both children and adults endless hours of education and exploration! (English and Japanese) K-2.

American Heritage Talking Dictionary



Never stumble over a word again. Put the power of this world-renowned dictionary to work for you, with the precise definitions of over 300,000 words right at your fingertips. Actually hear the pronunciation of difficult words. Find words by their definition alone. The wildcard feature lets you find words when you don't know all the letters, and the Anagram feature unscrambles letters to find hidden words. Plus, you get the Complete Roget's II Thesaurus with one million synonyms. Grades 3 and up.

MacMillian Dictionary for Children



An electronic version of America's best-selling children's dictionary. Features over 12,000 words, over 1,000 vivid pictures, and more than 400 sound effects. Every definition includes audio pronunciation and the ability to click on any word to go to its own definition. There are also games and a cantankerous guide called Zak, who help kids discover one of the greatest joys in the world--learning more about words! Grades 1-7.

Internet for Teachers

Beginning with an overview of Internet basics, The *Internet for Teachers* covers the World Wide Web, explains basic terminology and functions and shows how to get the community and the board of education involved. This A+ reference features tools and programs you can use on your Mac right away, including a free internet "Cheat Sheet"! Learn about the Internet using fun, easy, and practical activities written by teachers for teachers!

Book $15.95

Macs for Teachers

Find answers quickly with Pogue's troubleshooting and glossary sections. Filled with humorous, easy-to-use explanations of the Macintosh, a book for the learning environment offers an overview of basics and gives information focusing on the teacher's point-of-view. Finally, a fun, easy, and practical way to use Macs in your classroom and beyond!

Book $15.95

Internet Secrets

Internet Secrets is packed with expert tips from the hottest Internet authors. You'll also find fascinating articles from around the globe on doing business on the Net, network security issues, plus real-life Internet experiences. *Internet Secrets* offers an inside look at the Internet, from the people you'll find on it to the down and dirty details of the programs that bring its resources to you.

Book $31.95

HTML for Dummies

Learn the fun and easy way to write HyperText Markup Language pages for the World Wide Web! Your aid kit for building better web pages is an easy-to- follow, tutorial book that explains script interfaces and basic layouts for aspiring web page authors. Design effective web page layouts by integrating multimedia into your web pages and then publish them on the Internet!

Book $23.95

Internet for Mac for Dummies Starter Kit

This book is the easy, no-mysteries way for Mac users to get on the Internet and start exploring. The *Internet for Mac for Dummies Starter Kit* is the best Internet value available! Find friendly advice and tips on getting the most from the Information Superhighway in the bestselling The *Internet for Macs for Dummies*. Also included in the Starter Kit is the MacWeb Browser and two of the hottest Internet Access Packages, E-mail, Telnet, Gopher, and more! With one month FREE Internet access software from InterCon, you'll be surfing the Net in no time!

Book/CD $23.95

Creating Cool Web Pages

Go from Web Browser to Web Publisher using Macworld's *Creating Cool Web Pages* with HTML! Create web pages that get a second and third look with this fun, friendly, and informative guide. Learn how to design your web site by using real-life examples. Bonus disk inside includes electronic publishing and authoring tools to get you up and running with HTML!

Book/CD $15.95

WebMaster

Create your own World Wide Web site today! This exciting book is the definitive step-by-step guides for turning your computer into a World Wide Web server in a matter of hours. We've even included the software necessary to make it happen! This book features a brief overview of the origin and rapid growth of the World Wide Web, everything you need to write great HTML code for Web page design, and much, much more.

Book/CD $14.95

Internet Gizmos

Featuring over 40 hot commercial, shareware, and freeware programs--including Internet applications, tools, utilities, and programming resources--all on one super-value CD! Some commercial programs that are included: Mosaic Express, Sampler, CompuServe WINCIM, Super Highway Access Sampler, and Network Central. Shareware and freeware programs include: PC Eudora, LView Pro 1.8, Pipeline, PowerBBS, WHAM, and much, much more!

Book $31.95

Best of the Net

Best of the Net is the most useful, fascinating and (occasionally) weird stuff available on the Internet. Where can you find a great list of lightbulb jokes? Who starred in the Rocky Horror Picture Show? What is a rave anyway? Where can you get great vegetarian recipes? What are the five pillars of Islam? What did Bill Clinton really do on May 5, 1994? What are the ten most avoidable mistakes you can make during a career transition? Find answers to these burning questions and many more inside this fascinating book!

Book $19.95

How to Use the Internet

If you have access to the Internet through your work, school, or home computer but don't know how to take advantage of it, turn to *How to Use the Internet.* This colorfully illustrated beginner's guide introduces the resources available and shows you step-by-step how to find and use them. *How to Use the Internet* features: big, colorful illustrations to show you what the topic is all about; pictures of computer screens from live Internet sessions; and dozens of "Tip Sheets" offering practical advice and troubleshooting hints.

Book $14.95

Atlas to the World Wide Web

Atlas to the World Wide Web includes your own personal PC/Computing Road Map to the World Wide Web and a CD-ROM that's completely hyperlinked--it's your ticket to a vast and rich online multimedia experience. This book explains: how to connect to the Web; modem options necessary to travel the Web effectively; picking the right Internet service provider; how to create your own page in HTML (HyperText Markup Language); and more!

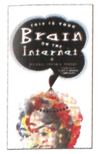
Book $14.95

Internet Access Essentials

This book is a complete guide to accessing and using the Internet. *Internet Access Essentials* introduces the concepts and technologies behind the Internet and gives specific instructions and options on hooking up. It includes easy-to-follow instructions and tips on applications such as e-mail, telnet and usenet, file transfer protocol, and mailing lists. This book will enable any network user to make the most of the Internet's many resources.

Book $19.95

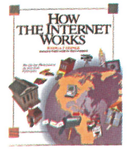
This Is Your Brain on the Internet



Think of Bartlett's Familiar Quotations for the computer age and you've got *This Is Your Brain on the Internet.* It's your source for what people are saying about (and on) the Internet, and about the computer industry and technology in general. Inside you'll find nuggets of wit and wisdom and timeless questions of life in cyberspace: "Usenet is like Tetris for people who still remember how to read." and "Hi, you have just entered the fourth dimension. Small, isn't it?"

Book $5.95

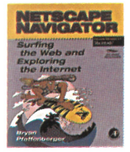
How the Internet Works



How the Internet Works is a colorful, captivating journey through the Internet, the world's most massive, most diverse cyber-community. *How the Internet Works* blends lively graphics and lucid text in an award-winning format to reveal how the Internet turns a patchwork quilt of computer services into an unparalleled information and communication resource.

Book/CD $18.95

Surfing the Web and Exploring the Internet



Surfing the Web or exploring the Net? This book covers all of the getting started issues such as running on the Internet or downloading tools like Netscape. *Netscape Navigator* gives you everything you need to employ the powerful capabilities of this Web browser. With it's step-by-step instructions, you can begin to master Netscape to its fullest potential.

Book/CD $18.95

HTML Publishing on the Internet

Create great-looking documents online. *HTML Publishing on the Internet* offers guidelines on how to create multimedia documents for the Web with HyperText Markup Language, furnishes several detailed case studies that illustrate how to use HTML, and provides example productions and helpful software.

Book/CD $18.95

Authoring Interactive Multimedia

If you intend to create an interactive multimedia presentation and need to select the appropriate tools, this book is for you. It recommends the best multimedia package to use based on your own personal profile.

Book/CD $39.95

Multimedia

MultiMedia & CD-ROMs for Dummies

Multimedia & CD-ROMs for Dummies helps you figure out what equipment you need, how to install it, and most importantly, how to make everything work together. You'll find the latest information on buying and installing CD-ROM drives, sound cards, video cards, plus trouble-shooting tips for taming troublesome programs.

Book/CD $15.95

Multimedia and HyperText

This book reflects the changes in the hypertext/ multimedia market and includes illustrated examples of a variety of new hypermedia systems, particularly those related to the Internet. Key features include extensive coverage of hypertext and multimedia on the Internet, including many examples of the use of Mosaic and HyperText Markup Language (HTML).

Book/CD $25.95

Multimedia in Action

Through examples, readers will discover how award-winning multimedia titles have been developed for use in sales, training, education, entertainment, and referencing. The book focuses on the IBM-PC compatible platform, although some titles developed for the Macintosh are also included. The accompanying CD-ROM contains examples of many of the titles profiled in the book, as well as demonstration versions of software used to develop multimedia titles.

Book/CD $34.95

CyberSource 95

Discover the most intriguing products generated in the cyberworld for the information age. Get candid, plain-English reviews from a variety of well-known and soon-to-be well-known cyberauthors. Access a grab bag of interesting tidbits that can make life in cyberspace a lot less stressful! *CyberSource* is the definitive catalog for a complete cyber-experience. Whether you read it all or just open it at random, *CyberSource* slices through the virtual fog with tips, fascinating facts, tons of product reviews, and brain-bending think pieces.

Book/CD $15.95

Computing . . .

101 Computer Answers You Need to Know and More!

Answers to: How do I get on the Internet? What is RAM, and is 4 megabytes enough? What should I be looking for in a multimedia computer? Why does my computer tell me I need more memory when I know I have enough? How do I get dog hair out of my disk drive? And more!

Book/CD $27.95

Leaping from Basic to C++

This is the first book that covers the transition from BASIC to C++. Designed for programmers with no prior knowledge of C++, this hands-on, no-nonsense primer guides the reader (using numerous realistic programming examples) through this seemingly difficult transition.

Book/CD $27.95

CD Guide to Multimedia Authoring

The *CD-ROM Guide to Multimedia Authoring* takes you off the page and onto the screen in a fully interactive handbook that goes beyond the simple "how to" by answering the more important question, "what for?" This guide is based on an understanding of human perception and how we respond to multimedia. It covers design, planning, storyboarding, navigation, and the skills you need to design a successful product.

Book/CD $29.95

Macintosh Crash Course

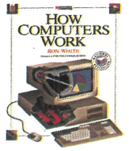
This book will show Macintosh power users what to do when things go wrong with their system. *Macintosh Crash Course* shows readers how to overcome Macintosh system crashes, system lock-ups, and the various frustrating and cryptic error messages they regularly encounter.

Book/CD $27.95

Books

Computer Literacy

How Computers Work



Take an exciting visual journey into the heart of the personal computer. Topics cover how the PC checks itself when switched on, and how keyboards, mice, and other input devices send information to the computer. In addition, you will learn about how data is output to monitors, modems, and printers, how computer memory works, and how a computer can store data in a special memory area to deliver fast performance.

Book/CD $18.95

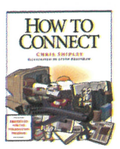
The Mac Almanac

SUPER $ VALUE

Written for every Mac enthusiast, *The Mac Almanac* covers all system details, hardware, and software, focusing on what every user needs to know. This easy-to-read compendium of techniques and tricks features extensions, control panels, and memory management. With quotes from such diverse sources as Shakespeare, Henry Kissinger, and the Grateful Dead, this volume is as entertaining as it is informative.

Mac $29.95

How to Connect



Your PC or Macintosh is your ticket to up-to-the-minute news, sports, weather reports, shopping, and travel services. Maintain convenient and inexpensive communication with friends and colleagues across the street or around the globe. *How to Connect* also includes thousands of games, utilities, and other top-notch programs. It's all right at your fingertips on today's information highway! Chris Shipley's, *How To Connect*, will steer you clear of technical roadblocks and show you how to choose and install your modem and communications software, how to make your first connection, how to pick the best on-line services and subscribe to them, how to exchange messages over the Internet, and how to make a worldwide connection to thousands of computer networks.

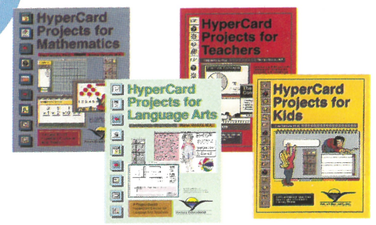
Professional Development



HyperCard Projects for Mathematics
HyperCard Projects for Teachers
HyperCard Projects for Language Arts
HyperCard Projects for Kids

HyperCard Projects for Teachers

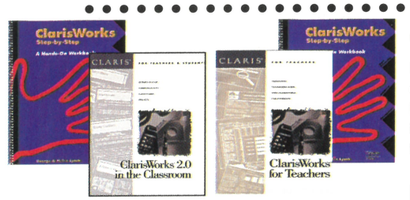
Learn to develop interactive HyperCard stacks by completing these step-by-step projects. Topics include: HyperCard Basics, Creating Stacks from Scratch, Graphics Techniques, Animation, and Word Games. Start each project by loading a shell, then follow the instructional guide and add buttons, fields, graphics, and scripts. When you're finished, you will have a useful stack which can be modified to fit your own curriculum area.

Mac Book/Disk $29.95

HyperCard Projects for Kids

Discover ways to use HyperCard as a tool for learning. *HyperCard Projects for Kids* has a computer literacy theme and is helpful to schools with specific computer literacy goals and objectives. Included on the disk is a special stack entitled, "Student Project Notebook." Grades 4 and up.

Mac Book/Disk $29.95



ClarisWorks for Teachers

Educators often find themselves compiling information that never seems to be current or in the format that is needed or in the same place twice. They need tools that will help them increase their productivity and reduce the amount of time it takes to get the job done. *ClarisWorks for Teachers* provides flexible tools that can help you manage most of those paper-oriented tasks easily and efficiently.

Mac book $29.95
Windows book $29.95

ClarisWorks in the Classroom

ClarisWorks in the Classroom projects were developed with the goal of integrating computer skills and curriculum concepts across a range of subject areas and student grade levels. Designed to give you the kind of information that will help you select the most appropriate activities for the students in your classroom.

Mac book $29.95
Windows book $29.95

HyperCard Projects for Mathematics

Spreadsheets, calculators, and now HyperCard are essential tools for the mathematics classroom. This exciting project-oriented product shows how to use HyperCard to enhance learning math. Special emphasis is placed on incorporating color and sound to build multimedia math software.

Mac Book/Disk $29.95

HyperCard Projects for Language Arts

Develop HyperCard skills and strengthen your language arts program. This book and software product will show you how HyperCard can be a powerful tool for anyone who teaches language skills. Although this book is designed to be used by teachers, many of the projects will become exciting classroom learning experiences for students. With a little imagination, these stacks will turn into starting points for many more projects that you will want to do on your own.

Mac Book/Disk $29.95

HyperCard Projects for MultiCultural Education

Develop HyperCard skills while building exciting classroom multicultural activities. This book and software product will show you how HyperCard can be a powerful tool to enhance any multicultural education program.

Mac Book/Disk $29.95

ClarisWorks Step-by-Step Workbook

If you're a teacher or trainer, you'll find that the division of this book into separate short topics--more than a hundred in all--makes it easy to use for everything from a one-hour beginner workshop on ClarisWorks to a ten-week course on computer applications.

Mac $14.95
Windows $14.95

ClarisWorks Step-by-Step Instructor's Guide

This book includes instructions for the *ClarisWorks Step-by-Step Workbook*, enabling teachers to better understand the many uses of this application program and how they can benefit from using ClarisWorks.

Mac $11.95
Windows $11.95

ClarisWorks Wall Chart

With the *ClarisWorks Wall Chart*, you'll never have to rack your brain trying to remember the hundreds of commands that the program calls for. This four-color, varnished, 22x29-inch wall chart shows every keyboard command you need to know to master ClarisWorks!

Wall Chart $14.95

Videos

Hands-On Math Inservice

Technology now offers new ways in which classroom teachers can engage their students in active learning approaches. In this video/workshop, developmentally appropriate instructional strategies will be presented which support the curriculum standards for grades K-8. The strategies encourage manipulation and exploration and extend the concrete manipulative techniques to a computer-simulated manipulative environment. The software demonstrated in the video and during the workshop engages children in active learning where they begin to construct, modify, and integrate mathematical ideas using simulated manipulative devices.

Video $49.95

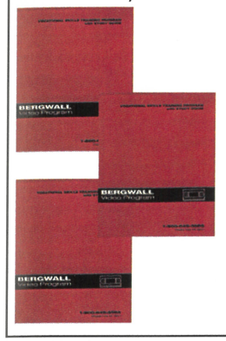
Animal Exploration Series



These Animal Exploration Videos are examinations and dissections of the leopard frog, the earthworm, and the crayfish.

Part One of each series is an examination of the external anatomy. It explores the steps to be taken to prepare for a dissection; the tools and special equipment required; important safety techniques and precautions; and a careful step-by-step examination of the external anatomy, including appendages, trunk, head, skin, and mouth.

Part Two of each series is an examination of the internal anatomy. It includes placement and pinning of the animal to the dissecting tray; demonstration of techniques for careful opening of the body cavity; identification of the organs within the digestive system, circulatory system, respiratory system, excretory system, reproductive system, and nervous system; and finally, good clean-up techniques are demonstrated.

Mac Academy Videos

#1 Highly Rated!

The ClarisWorks Video Training Series includes: Introduction to ClarisWorks, Word Processing, Database, Spreadsheets, Graphics, and Integration. It is available for both Macintosh and Windows users. This series of videos will take you step-by-step through the many uses of ClarisWorks. They will show you how to create and manage a database, how to edit your own documents without all the hassle, how to make great looking graphics for documents, show you all the different functions available when making a spreadsheet, and how to integrate your projects together.

BUNDLE

Save a bundle, and learn Clarisworks, too! Buy all six of the learning ClarisWorks videos and save $50.00!

All six videos $209.00

Video 1- Word Processing

Watching this detailed, step-by-step ClarisWorks video is guaranteed to enhance your word processing skills. Learn easy-to-use shortcuts and methods for outlining and drafting legal contracts and documents. Use multiple columns to create professional-looking catalogs and reports. ClarisWorks gives you great flexibility in the way you present what you write.

Video $39.95

Video 2- Database

The ClarisWorks Database Video shows a step-by-step process of how to manage and maintain information in a quick and easy manner. Learn how to design your own database by defining fields and modifying layouts. Find, update, and analyze information using onscreen and printed data. The ClarisWorks Database Video turns the average report or invoice into a field of information.

Video $39.95

Video 3- Graphics

Use the draw and paint graphic environments in ClarisWorks and create individual objects and elaborate images. This step-by-step video provides information on creating specific shapes or freehand sketches. Learn how to use tools and palettes to arrange, rotate, and blend any graphic or grid just the way you want it. With the ClarisWorks Graphics Video, you can now create the drawings you've always wanted.

Video $39.95

Video 4- Spreadsheets

The ClarisWorks Spreadsheets Video provides the viewer with a detailed overview of any spreadsheet environment. With a spreadsheet document, you can perform financial or scientific calculations, create professional-looking reports, and organize numeric information. Don't waste your time thumbing through pages of documents, let spreadsheets do it for you!

Video $39.95

Video 5- Integration

Learn how to integrate any tool within ClarisWorks to create your own great-looking, professional documents. Effectively combining the power of sight and sound, the ClarisWorks Integration Video shows how to combine spreadsheets, charts, outlining and word processing into any document. Mail merge your database along with corresponding mailing labels and cut the job, and your time, in half!

Video $39.95

Video 6- Educational Solutions

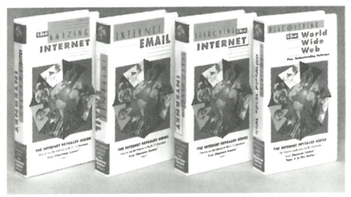
This ClarisWorks Video provides anyone in a school environment with an easier, more efficient method of organization. Entering and importing data has never been so easy. Develop a student database containing grade formulas, seat assignments and student records. Combine all of this information in your classroom onto your desktop and amaze all the teachers and parents!

Video $39.95

Videos

Internet Revealed: Video Learning Series

This landmark videotape production quickly delivers an A-to-Z understanding of what the Internet is and how to tap its unlimited educational resources. It's the one place students and teachers can turn to for a thorough orientation and how-to-do-it instructions that get the beginner online. Tim McLain, nationally known writer/surfer for Classroom Connect, is your host for this easy-to-understand series of four top-of-the-line, movie quality video productions. Tapes can be viewed as a set or individually in any order.



Tape 1: *The Amazing Internet* gives teachers and students a taste of the tremendous global teaching and learning power of the Internet. It introduces all of the communication, research, and navigation tools and the phenomenal World Wide Web. Captures and holds student interest from start to finish! (17 minutes)

Video $39.95

Tape 2: *Internet e-mail* is the most versatile and commonly used communications tool. Here are clear step-by-step directions for using the power of electronic mail to join over 4,000 global discussion lists, collaborate on international projects, and communicate with teachers and students worldwide. (27 minutes)

Video $39.95

Tape 3: *Searching the Internet* teaches hands-on navigation skills and valuable searching techniques. Quickly and easily, learn to unlock the treasure trove of educational resources on the Internet. Includes Gopher, Archie, Veronica, Jughead, principles of Boolean searching, and much more. Bonus selection on WebWanderer, WebCrawler, Lycos, Yahoo, and other World Wide Web Search engines. (24 minutes)

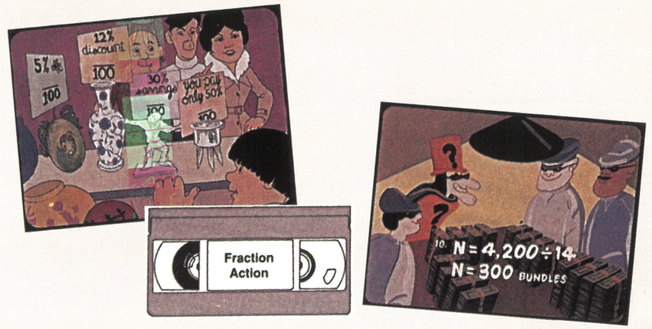
Video $39.95

Tape 4: *Discovering the World Wide Web* opens the door to an inexhaustible wealth of educational information. It's an up-to-the-minute teaching and learning tool of unparalleled scope. Easy-to-follow, step-by-step instructions show you how to navigate the Web and turn you into a World Wide Web power user. (60 minutes)

Video $39.95

Mystery Math Theater

Critical thinking will help your students become math detectives using math concepts presented in fascinating mystery story



settings. These highly interactive videos will excite each student to reach out for more and to achieve firm command of the math skills they need as they progress in school and life. Each (40) minute video includes twenty-four blackline masters and a teacher's guide complete with answer keys in a sturdy vinyl binder.

Peripherals

Digital Cameras

Flexicam Pro

FlexCam Pro is a compact desktop video camera ideal for video conferencing applications. It provides stereo sound and a flexible camera stalk that focuses from infinity up to 1/4". It also offers 300 horizontal TV lines with a 52-db signal-to-noise ratio. You can display NTSC video in a window on the screen or capture the image to disk. Equipped with S-Video output.

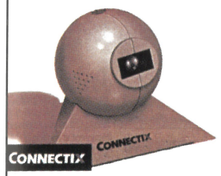
Digital Camera $595.00

Flexcam Teaching

FlexCam Teaching is the award winning *Flexcam Pro* desktop video camera with a microscope attachment. This camera is perfect for every classroom and offers a unique benifit to science teachers. It also offers 300 horizontal TV lines with a 52-db signal-to-noise ratio. You can display NTSC video in a window on the screen or capture the image to disk. Equipped with S-Video output.

Digital Camera $895.00

QuickCam



QuickCam is a fully digital video camera. It uses a state-of-the-art black and white Charge-Coupled-Device (CCD) array to accurately capture 4-bit grayscale video and still images. *QuickCam* sends these digital bits directly to your Mac through a serial port, such as your computer's built-in modem port. This gives you higher quality at a lower cost than solutions. The array can capture images up to 320 x 240 pixels.

Digital Camera $109.95

Logitech Fotoman Pixtura

The *Logitech FotoMan Pixtura* color digital camera is the best way for capturing true 24-bit color digital images and integrating them into your applications. Eliminates the time and money associated with film and developing. Offers the largest picture capacity, the highest resolution, and the longest battery life of any color digital camera.

Digital Camera $979.00

Kodak Digital Camera

KODAK Digital Camera 40 is versatile and easy-to-use. With this extraordinary compact camera, you can capture forty-eight 24-bit digital color images. High quality, low-cost pictures you can use instantly!

Digital Camera $979.00

Calculator

Venture 300

The *Venture 300* has a full screen Equation Editor and a twelve-character, two-line display to show fractions as normally written. Emulates the Sharp EL-E300 with a large keyboard and oversized display. It features single variable statistics, one-button conversion between fractions and decimals, and GCF and LCM functions, The Equation Play-back function allows recall and editing of the previous 16 entries.

Calculator $71.95

Educator Intermediate

The *Educator Intermediate Overhead Calculator* emulates the Texas Instruments *TI-12 Math Explorer* with a large keyboard and display. This fraction calculator also performs integer division unlike any other available calculator. With floating negative sign, 15 levels of parentheses, fixed decimal capability, fraction to decimal conversion and vice versa and true algebraic logic, it is the calculator teaching tool of today.

Calculator $63.95

Educator Scientific

The *Educator Scientific* emulates the Texas Instruments *TI-34* with a large array of advanced functions from calculating fractions to Boolean logic operators to statistical standard deviation. Its color-coordinated keyboard and large display will make even complex calculator demonstrations more interesting, accessible, and effective.

Calculator $63.95

Scanners

Epson ES-1200C

With up to 4800 dpi resolution and powerful built-in functions, the *ES-1200C* brings unprecedented quality and versatility to design and business applications. Top performing image editing software is included, along with the cables and drivers to make scanning easy.

Flatbed Scanner $995.00

Logitech ScanMan 256

ScanMan 256 gives you the gray scale quality of a flatbed scanner for the price of a hand scanner. *ScanMan 256* also lets you scan full pages and oversized items larger than a standard 8.5" x 11" or 8.5" x 14" page, up to 15" x 22". No other gray scale hand scanner offers as much as *ScanMan 256.*

Hand Scanner $119.95

PaperPort

Put all your papers to work for you with *PaperPort.* It fits neatly between your keyboard and monitor and takes as few as six seconds to scan a page. It then displays the digital image of the page on your screen. Once a document is on the screen, *PaperPort* software gives you the options to fax it, file it, or scan your papers.

Page Scanner with O.C.R $345.00

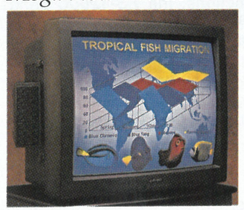
Monitors

MegaView Pro 29"



The *MegaView Pro 29* is the world's largest high resolution, auto-scanning color presentation monitor. It accepts signals from a wide range of sources including all video formats, PC and Macintosh computers plus many UNIX workstations. It combines a large, 29" direct view CRT with dynamic stereo audio via two external, front-firing speakers to provide you with the unparalleled performance and versatility required for making powerful, professional presentations. With Mitsubishi's *MegaView Pro 29*, your next presentation will be seen, heard, and remembered!

Display Monitor $4995.00

Samtron Syncmaster 17GL

The *Syncmaster 17GL* is a 17" High Resolution color display monitor with a maximum resolution of 1280 x 1024 non-interlaced. The *Syncmaster 17GL* now offers users the benefit of MPR II Emission Protection. This is the most popular 17" monitor for users of Windows and other standard business applications.

Computer Monitor $799.00

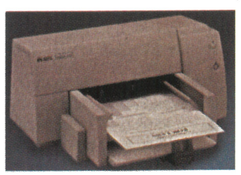
Printers

Epson Stylus Pro 720

Epson *Stylus Pro* Inkjet Printer (720 dpi) represents the latest advancement in Epson's exclusive, award-winning Stylus inkjet technology. Scanned photographic images are reproduced in incredible detail and spectacular color. It can even capture the subtle gradations of black & white half-tones accurately. Prints on plain paper, envelopes and Epson's premium coated, glossy papers and transparencies.

Inkjet Printer $579.00

Hewlett Packard Deskjet 600



The new HP *DeskJet 600* and HP *DeskWriter 600* printers with new ink and 600 x 600 dot-per-inch (dpi) print capabilities, offer high quality black printing on a wide variety of papers, including recycled paper. Adding color is easy with the optional HP color kit.

Inkjet Printer $369.00

Localtalk Connectors

Lifetime Warranty

QuickNet

Belkin's *QuickNet* allows Apple users to network Macs, printers, and peripherals using inexpensive phone cabling. Phone cabling is less expensive in material cost than traditional Apple Talk and may be used with existing phone cabling. Up to 48 users/peripherals may be networked with up to 4000' of cabling. *QuickNet* kit comes with everything you need to install on one computer or peripheral, including one 6" modular cable.

QuickNet DIN-8 ..... $12.95
QuickNet DIN-8 10 Pack $111.95
QuickNet DIN-8 50 Pack $499.95

Ethernet Transceivers

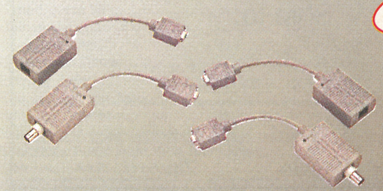
Belkin Components

Belkin's *Apple Ethernet Transceivers* are equivalent to Apple technology, but sold at Belkin prices. These transceivers connect the AAUI port on all Apple Ethernet Cards to standard 10BaseT or Thin Ethernet. They will also interface the Ethernet port built into the Quadra computer and Laserwriter IIgs to standard 10BaseT or Thin Ethernet Network Cabling.

AAUI to 10BaseT (RJ45) $44.95
AAUI to 10BaseT (BNC, ThinNet) $44.95

Sonic Systems

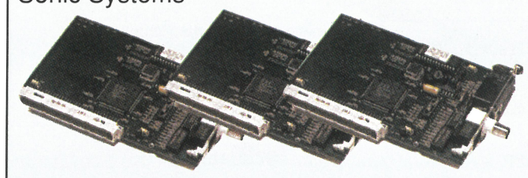
Lifetime Warranty



AAUI to 10BaseT (RJ45) $49.95
AAUI to 10BaseT (BNC, ThinNet) $49.95

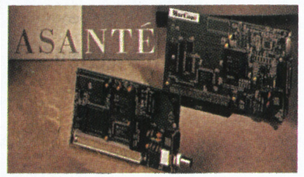
Macintosh Ethernet Card

Sonic Systems



Mac LC/LCII $69.95
Mac LCIII $89.95
Nu-bus $89.95

Asanté



Asanté, a proven leader in Macintosh networking, makes Ethernet cards that allow you to connect to thick, thin, or 10BaseT Ethernet networks. Asanté's complete line of high-performance network cards supports all Macs on all types of Ethernet media.

Mac LC/LCII $69.95
Mac LCIII $89.95

Ethernet Hubs

The *LinkBuilder TP/8* and *LinkBuilder TP/12* Hubs provide high-quality connectivity solutions at entry-level prices for smaller Ethernet networks that don't require comprehensive management. Built for environments where space and network support are at a premium, the hubs are compact, reliable, and easy to install and use.

Linkbuilder 8 (un-managed) $243.95
Linkbuilder 12 (un-managed) ..... $.679.95

3+3 Ethernet Print Server

The *3+3 Print Server* is a new, compact, high performance, multi port Ethernet print server for Netware from Belkin. The Belkin 3+3 can be connected to any Ethernet network running Novel Netware 2.x or 3.x operating system. Printers can be placed anywhere on the network as the 3+3 is installed as an independent network node, and no dedicated PC or file server port is required.

Printer Server $492.95

Netmodem 28.8

NetModem/E 28.8 (Ethernet) is the cost-effective remote access server solution for small or branch offices.

Modem $1847.00

PPP Remote Access

QuickStream/3 is a three port remote access server which gives telecommuters, remote workers, and other computers in other schools access to network resources over standard telephone lines with a modem at speeds up to 115.2 Kbps.

Remote Server $897.00

Peripherals

Telecommunications

Sportster 28.8 with V.F.C.

A combination fax and data modem designed for use with the MAC. Supports V.F.C. at 28,800 bps, V.32 bits at 14,400 bps and all earlier ITU-T standards. Sends and receives Group III fax transmissions at 14, 400 bps.

Modem $239.95

Teleport Platinum 28.8

No matter which Macintosh you use, the Teleport Platinum fax/data modem is the best choice for maximum performance. With data access speeds up to 28,800 bps and fax speeds up to 14,400 bps, you'll save time and money when you send and receive faxes, access your office network, transfer files, and connect to on-line services.

Modem $259.00

SupraFax 288

The *Supra Fax/Data Modem 288* has a quick data speed of 28,800 bps data speed and state-of-the-art compression. It also has advanced features like FlashROM for easy firmware upgrades, caller ID and Silent Answer fax and voice line sharing.

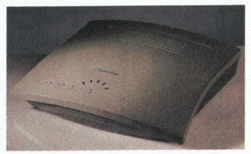
Modem $267.95

FAXnetwork

Designed for Ethernet and LocalTalk Macintosh networks, this powerful software allows any workstation to transmit faxes using a single, centralized modem. And since *FAXnetwork* works completely in the background, no dedicated server is required! Remarkably easy to use, *FAXnetwork* lets you fax from any application as easily as you print.

MAC Server $77.95
10-Users $239.95

Farallon Netopia



The Farallon Netopia provides a low-cost way to connect to the Internet using ISDN. Netopia lets local networks connect to the Internet at speeds of up to 128 kpbs, more than four times as fast as a V.34 modem.

ISDN router $999.95
